

For every product image to be published in the TROPICOPIA PRO collection, a minimum standard is required:

### Image product specifications

- Each product should require to be presented in every color available.
- A single product in one size and color per image.
- One complete product (no parts cut off) per image.
- The image file name should be the same as the product code\*.

### Image quality

- The image as to be on focus (no blurs)
- Pictures have to be taken in a certain angle for better integration (see example image).
- Minimum resolution for preferred file format is 600 x 600 pixels.
- Is preferred to have background already remove from the image. If not, as much as possible, a unique color background would be appreciated.

### File format

- **Preferred file format:** If you have already cutout backgrounds, the images with layers are preferred, else channel or path saved in the images will be ok. TIFF, PSD.
- **Other preferred format:** High resolution JPEG (1000 x 1000 pixels min. with path), BMP (with channel), TGA (with channel), EPS (with path) all with highest parameters (large file size).
- **Last chance:** No cutout, No layers, no channel or path, available at any compression. Very high resolution JPEG, BMP, TIFF, PSD, EPS, TGA (1500 x 1500 pixels min.)

### Information about your products

The information fields required for the products in TROPICOPIA PRO are as follow:

File name (same as product code)*	Ext. diameter (in and/or cm)	Saucer (if any)
Product code (if different from file)*	Int. diameter (in and/or cm)	Origin (if imported)
Description (textual name, descr.)	Height (in and/or cm)	Other available size
Category (Clay, Brass, Fiberglass...)	Width (for square/rectangle)	
Color/Finish	Grow pot	Others fields can be added....

\* To merge the image file with the database.

### Two possibilities to collect information:

- We can supply you an "Excel" spreadsheet already formatted for this purpose. All you have to do is to fill in the blanks.
- If you have already an existing spreadsheet. Just send it to us.

Note: We will take care of the translation to French and metric if needed.

### Exchange medium

- On CD or DVD as data file type
